```
// Function to download resume (PDF functionality can be added with jsPDF library)

function downloadResume() {

  alert("PDF Download feature will be added here!");

}

// Example: Dynamic content (you can change resume details easily)

document.getElementById("name").textContent = "Sathish Kumar";

document.getElementById("role").textContent = "Full Stack Developer";

document.getElementById("about").textContent =

"Enthusiastic developer skilled in C++, web development, and databases. Interested in building
scalable applications.";
```
